

Changelog for DynaLearn 1.0.5 (2013/09)

Highlights in this release

- Feature: OWL representations now use Turtle format
- Bugfix: Simulation problems with models created in 1.0.2
- Feature: Updated QR vocabulary ontology
- Bugfix: Singleton errors due to singleton variables in OR branches.
- Bugfix: Errors caused by calling list_to_set with variable input (as a result of new implementation of list_to_set).
- Bugfix: string replace function (exportName) rewritten to accommodate new implementation of select/3 and select/4.
